

Please do not allow LPFM stations to take priority over FM translator service! K-LOVE is a very large part of my family's daily life, both hear in town and as we travel through other towns. We push "scan" from town to town to find it.

K-LOVE gives me the opportunity thru its messages and songs to talk to my children about the Lord. It fills our head with thoughts and words which honor God rather than encouraging our thoughts to be on things that He disproves of, something the majority of secular music does promote. Too many children are listening to songs that drum sex and violence into their head. why not insert the word of God and good moral values instead? What awesome change might occur in highschoools around the country if K-LOVE was the only station on the air!!!! Please don't bump K-LOVE off of the air!
